

INTERNATIONAL PHARMACEUTICAL QUALITY provides in-depth coverage of emerging drug, biologic and combination product CMC and GMP issues and developments with a mission of helping advance and harmonize the quality regulatory process globally. Headquartered in Washington, D.C., IPQ is read by regulatory agencies, manufacturers, suppliers, consultants, law firms, and universities around the world.

IPQ tracks the industry/regulator dialogue at key international forums along with the developments, initiatives, regulations, guidances and standards in the quality regulatory arena to create a uniquely valuable resource for the intelligence gathering and knowledge management needs of the pharmaceutical community.

IPQ is all-electronic, and the substantial archive at IPQpubs.com is easily searchable through keyword and advanced search indexes. Links to documents referenced and cross-links to related previous IPQ coverage in the area are included, allowing readers to quickly dig as deeply into an issue and its context as needed.

IPQ's "News Alerts" provide links to the first few paragraphs of the stories newly posted online. Subscribers and license holders can click through to the full stories.

The "Monthly Updates" organize the stories that went online during the previous month by region (US, Europe, and international) and topic area (CMC/review and GMP/inspection) and are an easy way for subscribers to keep up with the current critical developments impacting the quality regulatory process worldwide. Included are "Updates in Brief" on recent developments in the CMC/GMP global arena with links to the referenced documents and to our related in-depth analysis. Also included are an annotated listing of FDA drug GMP warning letters and recalls as well as EU GMP non-compliance statements posted during the month.

From breaking news to in-depth analysis — the quality regulatory intelligence you need at your fingertips!

**We do the work so you don't have to.
Subscribe to IPQ and relax.**

IPQ takes its readers from:

- headlines to the forces driving them
- regulations to their underlying intent
- puzzle pieces to their interconnection
- rules to implementation pathways
- random data to critical trends
- the sidelines to shaping the outcome
- compliance problems to proactive tools
- information to strategic intelligence
